**AGENCY CONTACT MEMORANDUM**

**To:** Agency CIOs, Technical Contacts

**From:** Robin Morley  
Deputy Commissioner  
Commonwealth Office of Technology

**Date:** October 1, 2010

**Subject:** Cyber Security Webinars

October is National Cyber Security Awareness Month, and Commonwealth Office of Technology would like to invite state government technology leaders to attend a series of Webinars on information security trends.

The focus of this year's national campaign is increasing awareness of Internet security issues and educating people in the best practices of staying safe online. COT's seminars will feature a panel of experts speaking about targeted cyber breaches, security policy and planning, initiatives in identity and credential management, and the movement of public data and applications to the cloud.

Event schedule:

**Tuesday, October 19, 2010, 10:00 AM EST**

**Brent Crossland (Entrust) - Identity Management, Data in the Cloud** – The discussion will review trends in IT security breaches and discuss initiatives in the area of identity and credential management and the movement of public data and public applications to the “cloud”.

**Tuesday, October 26, 2010, 10:00 AM to 11:00 AM EST**

**Rich Comber (Check Point) - The Data Life Cycle, Employee Awareness, Security Policy and Planning**

**Wednesday, October 27, 2010, 1:00 PM-2:00 PM EST**

**Raleigh Burns (Symantec) - Security Threat Landscape Update** – This presentation will address the current breach anatomy and the phases of the typical targeted cyber breach, and procedural suggestions which make the typical organization more resilient.

National Cyber Security Awareness Month is sponsored by the National Cyber Security Alliance (NCSA), U.S. Department of Homeland Security and the Multi-State Information Sharing and Analysis Center. Detailed information about these Webinars and instructions for joining these meetings can be found at the following link:
